For market.....		---	---	749,437	856,844
For processing.....		---	---	309,646	273,427

1/ Includes an allowance for unredeemed loan and purchase agreement deliveries when applicable.

2/ The values shown are for the marketing season or crop year and should not be confused with calendar year income.

3/ 1952 price and value figures are preliminary.

4/ Ear corn

5/ December 1 price.

6/ Season average price to December 1.

7/ Price of hay sold baled

8/ Price and value apply only to the production of cleaned beans and peas.

9/ Does not include average Government payments under the Sugar Act. The United States average for these payments excluding abandonment and deficiency payments amounted to \$2.41 in 1951 and approximately \$2.40 in 1952 for sugar beets; and \$1.01 in 1951 and approximately \$1.12 in 1952 for sugar cane for sugar.

See State tables for additional details concerning individual commodities.

1/Estimates for each State cover the entire crop, whether commercial or noncommercial, early or late. 2/The 1952 price and value figures are preliminary.
3/Production includes some quantities of commercial early potatoes not marketed and excluded in computing value..

For potatoes, the beginning of the crop marketing season varies between States from December 1 preceding the year shown for Florida and Texas to August 1 of the year shown for certain northern States. The marketing season comprises 12 months in all States except California, which has a 14 month season beginning April 1 of the year shown. For sweetpotatoes, the crop marketing season is June 1 to May 31 in Ga., Fla., and Ala.; Aug. 1 to July 31 in N. J., Ind., Ill., Iowa, Mo., Ky., and Ark; and July 1 to June 30 in all other States. The values shown are for the marketing season or crop year and should not be confused with calendar year income.

1/ Estimates for the commercial crop relate to apples produced in the commercial apple areas of each State. 2/ The 1952 price and value figures are preliminary. 3/ For some States in certain years, production includes some quantities unharvested on account of economic conditions and/or excess cullage of harvested fruit. Price and value apply only to that portion of the crop utilized.

The crop marketing season for fresh fruit in N. J., Ind., Ill., Mo., N.Mex., and all South Atlantic and South Central States is June 1 to May 31, all other States, July 1 to June 30; canned, Aug. 1 to February 28; dried, Aug. 1 to July 31.

The values shown are for the marketing season or crop year and should not be confused with calendar year income.
